REPLY TO THE ATTENTION OF

MEMORANDUM

Date: August 27, 2001
Subject: Justification for NL Industries RA Completion Date
From: Brad Bradley, NL Site Remedial Project Manager BB
To: Janet Samuels

The date for RA completion for the NL Industries/Taracorp-Granite City, Illinois Superfund Site (the NL Site) that is in WasteLan is May 30, 2000. This date corresponds to the date that the remediation contractor for the potentially responsible parties finished excavating the last residential yard at the NL Site. Activities at the NL Site continued after that date; however, these activities were just for restoration of residential yards (sodding, fixing broken sewer lines, concrete, etc.). As of May 30, 2000, all contaminated soils had been removed from the NL Site, and that is why this date was entered in WasteLan as the RA Completion date for this site.
